

# Table of Contents

<b>ABBREVIATIONS</b>	<b>xii</b>
<b>BASIC CONCEPTS</b>	<b>1</b>
Normal Heart	2
Normal Pediatric Heart – Schematic View	4
Essential Concepts for Nurses and Technologists	5
Basic Embryology	6
Shunts	8
Aortopulmonary Septal Defect (AP Window)	
PDA	
Sinus Venosus ASD	
PFO (Secundum ASD)	
Primum ASD	
Membranous VSD	
Muscular VSD	
Multiple VSDs	
Surgical Repairs	
Measuring Right Ventricular Systolic Pressure (RVSP)	
<b>HEART DEFECTS AND SURGICAL REPAIRS</b>	
<b>Anomalous Coronary Arteries</b>	<b>14</b>
Left Main Coronary Artery Arising from the Pulmonary Artery	
Left Main Coronary Artery Arising from the Right Coronary Artery	
Right Coronary Artery Arising from the Left Main Coronary Artery	
<b>Aortic Arch Abnormalities</b>	<b>16</b>
Right Aortic Arch (with Mirror-Image Branching)	
Interrupted Aortic Arch	
Persistent Right Aortic Arch	
Abnormal Origin of the Left Common Carotid Artery	
<b>Aortic Arch Abnormalities with Vascular Ring</b>	<b>18</b>
<b>Aortic Stenosis and Associated Outflow Lesions</b>	<b>20</b>
Aortic Stenosis	
Subaortic Stenosis	
Supravalvular Aortic Stenosis	
AP Window (Aortopulmonary Septal Defect)	
<b>Aortic Obstructive Lesions – Surgical Repairs</b>	<b>24</b>
Percutaneous Balloon Valvotomy	
Konno Procedure	
Ross Procedure	
<b>Branch Stenosis and Pulmonary Artery Band</b>	<b>26</b>

# Table of Contents

<b>Coarctation of the Aorta</b>	<b>28</b>
Resection with End-to-End Anastomosis	
Synthetic Patch Aortoplasty	
Left Subclavian Artery Patch (Subclavian Flap Aortoplasty)	
<b>Cor Triatriatum</b>	<b>30</b>
<b>Double Outlet Right Ventricle (DORV)</b>	<b>32</b>
VSD Repair	
Jatene Procedure (Arterial Switch)	
Rastelli Procedure	
<b>Ebstein's Malformation of the Tricuspid Valve</b>	<b>34</b>
Blalock-Taussig Shunt	
Tricuspid Valve Patch or Repair	
<b>Endocardial Cushion Defect or AV Canal</b>	<b>36</b>
Synthetic Patch and Mitral Valve Repair	
<b>Hypoplastic Left Heart Syndrome (HLHS)</b>	<b>38</b>
Norwood Procedure	
Blalock-Taussig Shunt	
<b>Partial Anomalous Pulmonary Venous Return (PAPVR)</b>	<b>40</b>
ASD Patch Repair	
<b>Persistent Left Superior Vena Cava (PLSVC)</b>	<b>42</b>
Coronary Sinus ASD	
Unroofed Coronary Sinus	
<b>Pulmonary Atresia with Intact Ventricular Septum (PA-IVS)</b>	<b>44</b>
Blalock-Taussig Shunt	
Transannular Patch	
<b>Pulmonary Atresia with Ventricular Septal Defect (PA-VSD)</b>	<b>46</b>
Rastelli Procedure	
<b>Pulmonary Stenosis</b>	<b>48</b>
Valvular Pulmonary Stenosis	
Subvalvular Pulmonary Stenosis	
Supravalvular Pulmonary Stenosis	
Branch Stenosis	
<b>Single Ventricle (Univentricular Heart)</b>	<b>50</b>
Blalock-Taussig Shunt	
Pulmonary Band	
Glenn Procedure (Hemi-Fontan)	
Fontan Procedure	
Norwood Procedure	
<b>Tetralogy of Fallot (TET)</b>	<b>52</b>
Blalock-Taussig Shunt	
RVOT Reconstruction	
VSD, ASD Repair	

# Table of Contents

<b>Total Anomalous Pulmonary Venous Return (TAPVR)</b>	<b>54</b>
Supracardiac TAPVR	
Intracardiac TAPVR	
Infracardiac TAPVR	
<b>Total Anomalous Pulmonary Venous Return (TAPVR) – Surgical Repairs</b>	<b>56</b>
Confluence Repair	
ASD Repair	
<b>Transposition of the Great Arteries D-Type (D-TGA)</b>	<b>58</b>
<b>Transposition of the Great Arteries Corrected or L-Type (L-TGA)</b>	<b>60</b>
<b>Transposition of the Great Arteries – Surgical Repairs</b>	<b>62</b>
Jatene Procedure (Arterial Switch)	
Mustard and Senning Procedures (Atrial Switch)	
“Double Switch” Procedure	
<b>Tricuspid Atresia</b>	<b>64</b>
Blalock-Taussig Shunt	
Glenn Procedure (Hemi-Fontan)	
Fontan Procedure (Fontan Completion)	
<b>Tricuspid Atresia with D-Transposition</b>	<b>66</b>
Damus-Kaye-Stansel Procedure	
Blalock-Taussig Shunt	
<b>Truncus Arteriosus</b>	<b>68</b>
Type I	
Type II	
Type III	
<b>Truncus Arteriosus – Surgical Repairs</b>	<b>70</b>
VSD Repair	
PDA Repair	
Rastelli Procedure	
<b>Other Syndromes and Conditions Associated with Congenital Heart Disease (CHD)</b>	<b>72</b>
<b>APPENDIXES</b>	
Appendix 1: Surgical Procedures	76
Appendix 2: Prevalence of Congenital Heart Disease	79
Appendix 3: Typical Functions and Values for a Full-Term Neonate	80
Appendix 4: Scanning Protocols for Echocardiographers	81
Appendix 5: Imaging Tips	84
Appendix 6: Echocardiogram Worksheet	86
Appendix 7: Glossary	87
